Lynch Law in Oneida County, N. Y. LOOMIS PAMILY DRIVEN OUT AND THEIR HOUSE BURNED.

On Sunday morning a strong party of citizens, living at or near the southeastern part of the county of Oneida, in this State, consummated a long-cherished purpose of destroying the house and other buildings in the town of Sangerfield, belonging to the notorious family of thieves known as the Loomises. It will be remembered that we gave a full description of this lawless family and their gang, extracted from the report of the Prison Association, some time ago; also, that a mob attacked them last fall and murdered one of them. This time there appears to have been a purpose to drive them away, which would seem must be successful. We collate the follow-

ing particulars from the Utica horning Herata;—
"About daylighs, or a suort time before, the Lcomis residence was surrounded by a large number of persons, variously stated at from sixty to one hundred; the house entered, and all the inmates taken prisoners and put in irons. Then commenced a search on the premises. The following persons were taken prisoners:-Rhoda Loomis, Cornelia Loomis, Grove L. Loomis, and Plumb Loomis. They were ironed, but there were several occupants of the house over whom a strict watch was kept, but who were not ar-rested. Suon auer, the party being removed from the house, a Dutch boy, in the employ of the family, was taken and hung up to a tree, in order to make him confess, if possible, what he knew of the doings of the lamily and others that were there. This did not amount to much. After releasing the Dutchman the party took Plumb Loomis and hung him up in the same manner, and called upon him to confess. He was served in this manner three times, and the last time, upon being let down, was found to be perfectly senseless. Between the hangings he affirmed that he had not seen the man Alvord for five years; also, the man that shot Officer Fi kins was a brother of Thomas Mott, now in Morrisville juil; that he also ared the barn of Mr. Morris Terry, in Waterville, last fall, and Mr. Conger's muidings at Sweet's Corners, some time ago; that he (Mott) was paid by the Loomis family to do it; also, that Alvord was, o : Sunday morning, shot twice by Officer Filkins and that Grove took him away last Saturday. Plumb further said that Mott and others, for whom there were papers, were away from his house now, but proclaimed his readiness to assist in finding them. Grove also expressed himself in the same manner. The party then proceeded to remove the horses and other live stock out of harm's way, and then fired the barn and shanties, destroying everything. The hop house was the last building fired. A small barn or snanty that was back in the woods was not destroyed, being the only thing left standing on the premises. Mrs. Loomis said the party was composed of persons mostly from Madison county; that she did not know of there being any from Waterville connected with it. Others say Officer Stone, of Madison county, and a large posse of aids were present and that they, with a party from North Brookfield, were the main movers in the affair. Plumb Loomis was taken to Morrisville in The others were released on condition that they left those parts within thirty days. If seen about the vicinity after that time they forfeited their lives."

The tamily had been notified some days previous. If they had resisted, as they did days ago, the process which Deputy Sheriff Filkins attempted to serve, they would probably have been exterminated on the spot. But they wisely abstained from violence. The Heraid

The family, after the occurrence, were sitting at the roadside on the fences, with scarcely anything left them but what they had upon them. This affair, so sudden, evidently premeditated, and signally successful in its object, will undoubtedly be hailed with gladness by those who have long suffered from the depredations of the Loomi es, or who have watched their proceedings. Others will deprecate the fact that men forgetful of what is just and proper have been found thus willing to override law and destroy that love of order, a respect for which is the bulwark of a community's safety. One thing is certain, the Loomises, no matter how, are effectively cleaned out, with the hint pending that there are localities more healthy than Sangerfield. The whole history of the Loomis and Filkins quarrels is disgraceful. People generally, very possibly by this time, consider neither the Loomises or Filkins especially amiable people, and are inclined to congemn, with something like equal severity, the notorious members of the gang, and perhaps officious official."

REORGANIZED.—The City Council of Cam-den have done a wise and judiclous thing. At a recent meeting that body passed an ordinance reorganizing the fire department, in which several changes of a very important character were made. These changes constitute a fair and reasonable basis upon which the fire de ment can build an organization which will be a credit to themselves and the community at It possesses elements and material amply sufficient to carry out all the requirements of the ordinance, and the future good of the com-panies imperatively demands that the members should cordially co-operate with the liberal action of the Council.

HONORING THE FALLEN BRAVES .- Active measures are going forward in Camden, Gloucester, Cumberland, and other counties of New Jersey, to provide means for erecting appropriate monuments to the memory of those brave heroes from said counties who fell in defending the honor, integrity, and flag of our glorious Union. Crowds of people were attracted to the spot by the rumor of the discovery. In a day or two the commany will commence pumping oil, and we advice them to give the public a chance to see so great a curiosity. The oil well will pay better, probably, as an exhibition than as a more producer of petroleum; thousands of persons who have speculated in oil would be glad to see the practical operation, and there are plenty of ladies who have bough stock, who would be delighted to take a ride out to the Wissahrekon, and see the manner in which they Wissahickon, and see the manner in whice they made their money-or loss it.
